# Electric Punching Systems

invigorate your image

## HD 7700 Electric Punch

The most powerful table top punch in the industry. The HD 7700 will punch up to 55 sheets of 20 lb bond in a variety of punching patterns.

**Punching Capacity: \***

Coil & Wire .....	40 sheets
Plastic Comb.....	48 sheets
3-Hole/UltraBind .....	55 sheets

## HD 7000 Electric Punch

The first in the industry to offer quick change punching dies and the anti-jamming feature, while punching up to 45 sheets of 20 lb bond.

**Punching Capacity: \***

Coil .....	30 sheets
Wire .....	35 sheets
Plastic Comb.....	40 sheets
3-Hole/UltraBind .....	45 sheets

## OD 4012 Electric Punch

The OD 4012 has a punching capacity up to 25 sheets of 20 lb bond. Available with a variety of dies and binding modules.

**Punching Capacity: \***

Coil/Wire .....	22 sheets
Plastic Comb.....	25 sheets
3-Hole/UltraBind .....	25 sheets

All Electric Punching Systems utilize an interchangeable die system which allows you to choose from a variety of punching dies.  
\* Reference numbers based on 20 lb paper. Number of sheets will vary depending upon paper weight and punch pattern used.

# Finishers

## HD 4170 Coil Inserter

Heavy-duty coil inserting unit binds 6mm to 40mm coil and up. The HD4170 is a stand-alone production unit or can be mounted on your HD/OD series punch.

- Book thickness and coil sizing gauges
- Built-in crimper pliers holder
- Inserts all pitches and diameters

## HD 8000 Wire Closer

The HD 8000 wire closer gives you the ability to finish wire documents up to 14" long and up to 1-1/4" in diameter. The HD 8000 can be used with any electric or manual punch to produce professional wire bound documents.

- Accommodates wire diameters from 3/16" to 1-1/4"
- Binds Double Loop wire binding (2:1 or 3:1 punch patterns)
- Wire holder optional

## HD 4470 Plastic Comb Binder Opener

The HD 4470 plastic comb binder opener comes configured with stand-alone feet so it functions as a separate comb binding workstation.

The HD 4470 can also be mounted to your HD/OD series punch to create an all in one punch and bind station. Will bind up to 2" (51mm) thick.

# Binding Supplies

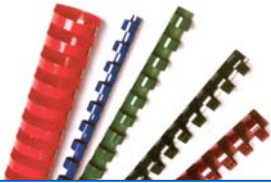

## Color Coil

Our plastic coil binding elements are popular for documents that need to lie flat even when opened cover to cover (360°). We manufacture plastic coil in a large variety of colors and size to suit your needs.

Available in 4:1 (4 loops per inch) in 12" lengths.

## Plastic Combs

This classic binding solution allows for the addition or removal of pages even after the document is bound.

Standard length is 19 rings (for an eleven inch binding edge) with custom lengths available.

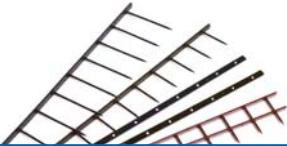

## Double Loop Wire

The premier choice in wire binding systems. Double Loop wire is available in diameters ranging from 1/4" through 1-1/4".

This permanent binding choice creates true lay-flat documents, opened or closed. Used with equipment that punches either a round or square hole pattern and crimps the wire closed.

## UltraBind Strips

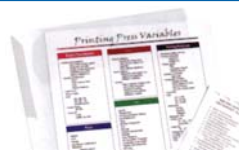

UltraBind binding strips are compatible with all VeloBind® hot knife systems. UltraBind strips are secure, tamper-resistant, permanent bindings with a professional, upscale appearance.

## Stock Covers

- Linen
- Clear & Frosted
- Embossed
- Leatherette (Regency)

## Pouch Laminating Supplies

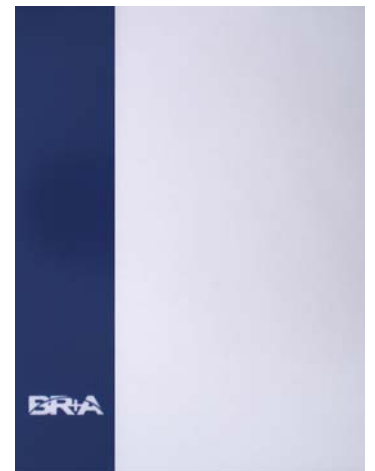

- Letter Size
- Legal Size
- Menu Size

## Custom Covers

Dress up that final proposal with customized covers from Direct Binding & Printing Co. We offer the largest selection of pre-printed cover styles to suit all your business needs. A professional looking proposal can go a long way in securing business today...and tomorrow.

- Frosted Covers
- Silk Screening
- Embossing
- Foil Stamping
- Offset Printing
- Custom Finishing

## Customized Combs

Enhance your presentation with customized printing directly on the binding comb. Whether it's your logo, corporate information or a custom message - comb printing allows bound proposals to be seen and identified when viewed on a shelf...just like a binder! Combine with custom covers for a unique and stylish presentation.

## Index Tabs

Organize large quantities of printed materials with pre-printed index tabs. Index tabs are ideal for sales presentations, instruction manuals, employee handbooks and price books...anywhere that requires employees or clients to quickly reference information.

- Available in 1-4 color
- Clear or colored mylar
- Drilling & reinforcing
- Variety of die cut options
- Copier tabs - 1/5 cut stacked in white, single reverse collated
- Side, top & bottom tabs
- Custom papers available

## Pocket Folders

Secure your proposals, presentations or other company documents in a durable, attractive pocket folder. Available in a wide range of colors, materials and decorative techniques, pocket folders give your organization the professional look it deserves.

- Single & Double Pockets
- Film Lamination
- 4 Color Process
- Screen Printed
- Foil Stamping
- Embossing
- Die Cutting
- Customization

## Binder Solutions

Make your communications look as smart as your brand. Direct Binding & Printing Co. will work with you to customize binders so you can make a statement before the cover is even opened.

- Vinyl & Poly
- Clear Overlay
- Film Laminated
- Insert & Seal
- Turned & Stitched
- Turned Edge
- Lithowrap - 4 Color Process
- Customization
